

# mulch

**1** Choose Bulk or Bagged

**2** Choose Bark or Woodchips

**3** Choose Dyed or Natural

Mulch	Bulk	Bagged	Bark	Wood-chips	Dyed	Natural	Com-post	Notes
Double Shred	●		●			●		Shredded hardwood bark. Various sized pieces, chocolate brown in color.
Screened Double Shred	●	●	●			●		Shredded hardwood bark, similar to double shred, but the larger pieces are removed by a screening process.
Timber Ridge Triple Shred	●	●	●			●		Shredded hardwood bark, very finely shredded. Chocolate brown in color.
Timber Ridge Dyed Red, Black, Brown	●	●		●	●			Hardwood furniture ends, shredded along with small amount of recycled selected hardwood. Needs to be removed after 2 years.
Grandscape Black, Brown	●	●	●		●			Shredded hardwood bark, screened, dyed. Dyed with organic dye.
Grandscape Triple Black, Brown	●	●	●		●			Shredded hardwood bark, screened, dyed. Dyed with organic dye.
Playground	●	●		●		●		A pure, soft wood product. Chipped pieces of select softwood. Very little bark. Used for cushioning beneath playground equipment
Organic Brown	●		●	●		●	●	A combination of select hardwood, hardwood bark & compost. Enriches the soil while breaking down.
Nature's Treasure	●					●	●	A combination of composted wood, grass and leaf humus. Designed to be either a soil additive or a very fine mulch.
Pine Bark Nuggets		●	●					Pine bark mulch is chipped and shredded to a larger texture. Pieces are up to 3 inches in diameter.
Pine Bark Mini Nuggets		●	●					Pine bark mulch is chipped and shredded. Pieces are up to 1/4 to 3/4 inch in diameter.
Pine Bark Mulch		●	●					Pine Bark Mulch, fine pieces.
Classic Cypress		●	●					The entire cypress tree is shredded to make this mulch.
Sweet Peet		●					●	Composted wood chips, horse manure and a small amount of straw. An excellent mulch and soil conditioner. Chocolate brown in color.

# soil & amendments

Product	Notes
Premium Screened Topsoil	A blended soil containing some native soil, compost and sand. Very nice texture. Appropriate for gardens or lawns.
Top Dressing Mix	A mix of approximately 1/3 concrete sand and 2/3 humus. May be used as a soil amendment. When applied at a depth of 1/4 inch.
Unscreened Compost	Unscreened Leaf Humus.
